VAILON LABS

Premium Peptide Catalog

Research-grade peptides across metabolic, recovery, growth, cosmetic, and longevity categories.

WEIGHT LOSS & METABOLIC

Retatrutide	Triple-action GLP-1/GIP/glucagon agonist. Most powerful weight-loss peptide — drives fat loss while improving cholesterol and blood sugar.
Tirzepatide	Dual GLP-1/GIP agonist. Clinically proven for weight loss and blood sugar; exceeds semaglutide in metabolic outcomes.

RECOVERY & REPAIR

BPC-157	Body Protection Compound. Accelerates healing of tendons, ligaments, muscles, and gut lining. Widely used by athletes.
TB-500	Promotes systemic tissue repair and reduces inflammation. Stacks powerfully with BPC-157 for injury recovery.

GROWTH HORMONE & BODY COMP

CJC / Ipamorelin	Sustained GH pulse via combined GHRH + secretagogue. Lean muscle, fat loss, better sleep and recovery.
Tesamorelin	GH-releasing hormone analog. Reduces visceral fat, improves body composition and cognitive function.
Ipamorelin	Clean GH secretagogue. Improves lean mass and sleep quality — no cortisol or prolactin spikes.
Sermorelin	Stimulates natural GH release. Gentle, entry-level option for anti-aging and body composition.

QUALITY & STANDARDS

Verified Purity
Every batch tested to ≥ 99% purity through third-party laboratory testing.

Documented
Certificate of Analysis available for all compounds.

Research Standard
Sourced and handled to the highest research-grade standard.

Lab Use Only
All products intended strictly for laboratory research.

SKIN & COSMETIC

GHK-Cu	Copper peptide. Stimulates collagen, skin regeneration, wound healing, and hair follicle activation.
MT-1	Melanotan I. Gradual, even skin tanning via melanocyte stimulation — no UV required.
MT-2	Melanotan II. Faster tanning plus libido and sexual function enhancement. More potent than MT-1.
Glow	Signature cosmetic blend for radiant skin, collagen support, and anti-aging. Our most popular beauty stack.
Klow	Premium cosmetic and longevity stack. Combines skin-deep repair with systemic anti-aging for total rejuvenation.

LONGEVITY & ENERGY

NAD+	Powers cellular ATP production and DNA repair. Top longevity compound — supports mitochondrial health and cognitive clarity.

SIGNATURE STACKS

Recovery Protocol
